Product Description

Millennium is defined as a period of thousand years. KS&DL visualizes a future of great happiness for everyone who uses the Mysore Sandal with an offer of new product with continuous innovation for newer millennium. Millennium represents a long period of time & each millennium marks the beginning of new quest for excellence & taking new challenges with Zest & Enthusiasm. With the increased environmental challenges, the desire for natural products usage, excellence in quality of life and going to roots of one's culture and values also increases worldwide . It is in this context the New Mysore Sandals Millennium, a unique & super premium product from the house of Mysore Sandal soap, effectively carried forward the legacy of natural Mysore Sandalwood oil as a cosmetic & therapeutic ingredient over the decades is being offered to the new age customers on par with the REACH & FDA Standards. The Mysore sandalwood oil has the Geographical Indicatory registration No. 29. The product was subjected to statutory dermatological safety studies as per IS:13424-2011 and IS:4011-1997 for Human patch test. The product also meets the BIS standards. The product is subjected to Corneometry and TEWL (Trans Epidermal Water Loss) test as per the International standards.

BENEFITS OF M.S. MILLENNIUM SOAP

The soap is derived of pure high quality vegetable oil base, added with conditioners, moisturizers, Vitamin-E, Jajoba-Mimosa-Sun-flower seed waxes, Shea-butter, Almond oil, Hydrolysed milk protein, stabilizing agents etc., enriched with pure & natural Mysore Sandalwood oil based fragrance added with natural essential oils Vetivert, Guaicwood, Patchouli, Geranium, Petitgrain, Orange, Ceedarwood, Palmrosa, Clove etc., enhancing the property of the soap to draw the radiance of the person naturally. Sandalwood oil – This relaxing oil has a harmonizing and calming effect which reduces tension and confusion and is ideal for use in depression, hectic daily lifestyles and states of fear, stress, nervous exhaustion, chronic illness and anxiety. On the skin, sandalwood oil relieves itching and inflammation of the skin, and is most effective in relieving dehydrated skin – making it great for anti-ageing skincare – and the astringent action has a great toning effect and is also used with great results in oily skin conditions and to prevent the skin from forming ugly scars and for fighting dry eczema. Almond oil – Almond oil improves complexion & retains glow, moisturises better and deeper, soothes skin irritation and inflammation, nourishes the skin. Makes it smooth and soft, delays the ageing process. Vitamin-E-acetate – Vitamin E acetate has antioxidant properties, acts as sunscreen, and adequate hydration help dry, thin, leathery, wrinkled skin return to the beautiful supple, thick, vibrant skin of youth. Hydrolysed Milk Protein – Hydrolyzed Milk Protein is one of the most nutrient rich proteins due to its complete amino acid content. Acts as increased hydration and elasticity in skin. It also possesses anti-irritant and protective properties. Shea butter emulsion – Shea butter revitalizes, softens, protects, relaxes, refreshes & maintains the skin moisture. Shea Butter penetrates deep into skin to help restore elasticity. It benefits the skin by keeping it clear & smooth. Jajoba-Mimosa-Sun-flower seeds waxes – It reduces the Trans Epidermal Water Loss and increases moisturiser and improves the surface aspect of the skin. Glycerine – Glycerine is well known for the innumerable benefits that it has as regards dry skin care . Glycerin's humectant and hygroscopic properties make it the best product that can be used for dry skin care and dry skin care problems. It improves and protects dry skin by filling up the intercellular matrix and also helps in building an even skin structure. It attracts just the right amount of moisture required to hydrate dry skin. Glycerine uses for skin is not only for dry skin and dry skin problems, it also extends to oily skin and skin aging problems. Glycerine is very beneficial for oily skin care as it prevents and cures acne related skin problems. The soap is made for all seasons, all kind of users for nourishment, rejuvenation, brightening, soothing, cooling with the enthralling aroma of Sandalwood and other key ingredients which the user deserves naturally in the New Millennium.
